

2018-19

Accountability Report

Scholarships, mentors & hope for deserving students across Florida since 1995.

Take Stock in Children provides an educational pathway for deserving, low-income students. Since 1995, we have helped over 32,000 at-risk children stay in school, graduate from high school, complete college, and become productive citizens. This success is achieved through an innovative multi-year program model of mentorship, a college success coach, accountability, college readiness skills training and scholarships. Over 96% of our students graduate from high school and 92% go on to pursue a post-secondary education, well over the national average.

The Scholar's Promise

Take Stock in Children scholars promise to graduate from high school and go to college. They begin the program in middle and early high school and sign a contract, promising to achieve both academic and personal goals. These include meeting with their mentor weekly, maintaining good grades, remaining drug and crime free, demonstrating good behavior and attendance, and participating in college readiness workshops. When they reach high school graduation and have fulfilled these commitments, they are awarded a scholarship to a Florida college, university or vocational/technical school.

Take Stock in Children's Promise

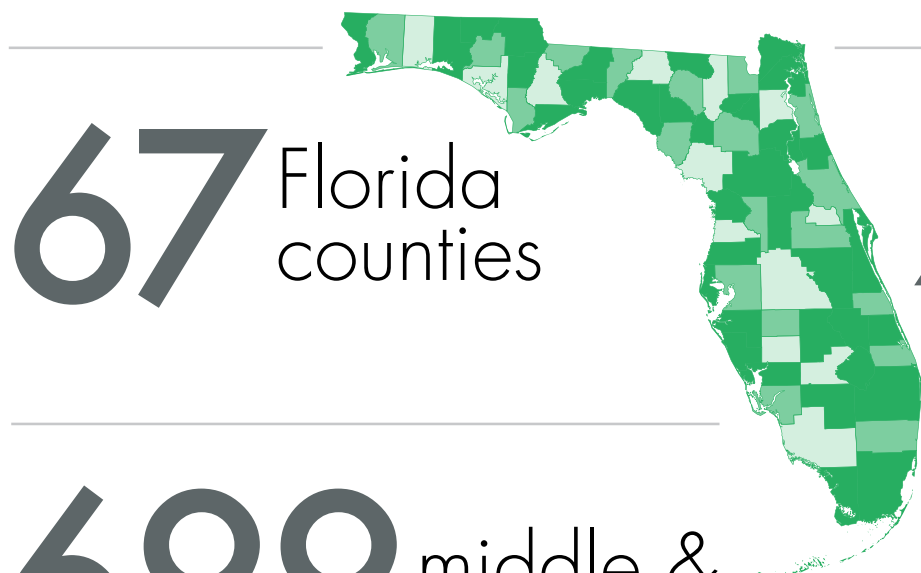

Take Stock in Children promises scholars the support of a caring mentor, in-school support, college readiness services provided by college success coaches, and a college tuition scholarship upon high school graduation.
